REASONS FOR ALLOWANCE

Information Disclosure Statement

1. The information disclosure statement filed 15 October 2009 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the information disclosure statement does not meet the requirement for a 1.97(e) statement and the 1.17(p) fee. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Allowable Subject Matter

2. Claims 37-39 and 60-66 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 37 and 60 are allowable for at least the reason, "a transmissive base material having a first surface on which the exposure light beam enters into the transmissive base material, a second surface on which the exposure light beam exits from the transmissive base material, and a side surface of the transmissive base material, and a light-shielding film provided on the side surface of the transmissive base

material on a substrate side of the projection optical system" as set forth in the claimed combination. Claims 38, 39, and 61-66 are allowable due to their dependence on claims 37 and 60.

The arguments presented in the request for reconsideration dated 15 October 2009 were persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
